

Ultrasound Video Gastroscope EUS-J10 line-up

Broaden your perspective

The PENTAX Medical Ultrasound Video Gastroscope EUS-J10 line-up is designed for optimized procedural efficiency. Together, Hitachi and PENTAX Medical provide brilliant imaging and unique features in a joint clinical solution. This combination allows for clear visualization, successfully enabling endosonographic diagnosis and advancing therapeutic procedures for the benefit of patients.

Optimized procedural efficiency

Optimize Access

Increased maneuverability and improved ergonomics ensure superb stability and ease of intubation for higher procedural success rates, optimized working comfort, and better patient tolerance. *The new way of doing.*

Enrich Diagnostic Findings

Greater detail, better delineation, and superior penetration: a proven PENTAX-Hitachi image quality enhanced to provide improved diagnostic outcomes, and guidance on therapy. *The new way of seeing.*

Redefine Therapy

A unique, enlarged 4.0 mm working channel expands therapeutic capabilities to advance EUS-guided intervention while providing full control of the procedure. *The new way of treating patients.*
